## 2025 NATIONAL SENIOR CERTIFICATE (NSC) RESULTS: REVISED TIMELINE FOR ADMISSION OUTCOMES

All public universities, including the Tshwane University of Technology (TUT), were granted access to the 2025 NSC results at 6:00 on Monday 12 January 2026 – 24 hours before their public release on 13 January 2026. In previous years, universities were granted access to NSC results 72 hours before they were publicly released. This enabled universities to finalise admission decisions and issue acceptance letters on the same day learners received their results.

Because of this change, Universities South Africa (USAf) announced on 10 January already, that public universities will release application outcomes to first-time-entering students only after the official release of the NSC results to learners and schools.

Accordingly, TUT has re-aligned its processes so as to finalise the upload of the matric data within the new timeframes.

### ***Date and time of application outcomes at TUT***

Prospective students are encouraged not to visit any of the TUT campuses until they have received formal correspondence from TUT, which will be released **on 15 January 2026 from 16:00**.

Applicants are advised to register within 24 hours of receiving confirmation of placement in a qualification/course. Each qualification is offered on a first-come, first-served basis until the course is fully registered.

The University appeals to prospective students, parents and guardians to exercise patience during this period.

Should further spaces become available, a formal list will be published on the TUT website to allow for late applications.

### ***Beware of scammers***

Please do not seek assistance on social media from anyone promising University acceptance in exchange for payment. **Don't risk your future. Space is earned. There are no shortcuts. Remember, the person who pays a bribe is just as guilty as the person who accepts it.** Report scammers anonymously by contacting the TUT Fraud Hotline on 08000 006 924 or by email at [reportit@rthicshelpdesk.com](mailto:reportit@rthicshelpdesk.com).
